Relevant Experience

Self-employed

Designer and Illustrator

Burnaby | November 2017 – Present

- Made assets such as icon sets, mobile and desktop wallpapers
- Worked in a solo environment and met tight deadlines
- Quickly learned new design styles and illustration techniques
- Orally and textually described my projects as well as my design process

HiNeon LED Neon Signs

Full Stack Design Intern

Richmond | September 2017 – October 2017

- Worked in a team environment at this LED lighting company
- Evaluated the company's website and custom sign order form
- Designed and coded a custom neon sign web application
- Was a company representative at a market event for artisans, designers and makers

Volunteering

Vancouver Design Community

Event Organizer | September 2017 – Present

- Helped with registration, venue setup and looking for speakers

Education

British Columbia Institute of Technology

New Media Design and Web Development with Distinction
Certificate | October 2017

Langara College

Computer Science

Transfer Credit | August 2014

Active Professional Development

Teamtreehouse.com and Lynda.com courses

Self-directed reading and learning online

Projects

Google Timer | BCIT

Interaction Designer

Vancouver | July 2017 – August 2017

Skills used: UX/UI design, Interaction design

Tools used: Sketch, Adobe Creative Suite, Draw.io

- Case study on the stock Android clock app's timer feature
- Inspected the app and identified usability issues
- Formulated and implemented a design solution that addresses the stock timer's issues

Grail | BCIT

Co-founder, UX/UI Designer

Vancouver | February 2017 – March 2017

Skills used: UX/UI design, User research, Usability testing

Tools used: Sketch, Adobe Creative Suite, Invision, Draw.io

- Community marketplace app for men's clothing
- Made a paper prototype and user tested it with people who fit the app's target demographic
- Designed the user interface based on feedback from usability testing
- Performed a heuristic evaluation on the final prototype

Royal City Centre | BCIT

UX Researcher, Sales Manager

New Westminster | December 2016 – January 2017

Skills used: UX/UI design, Information Architecture

Tools used: Sketch, Adobe Creative Suite, Google Slides

- Worked in a collaborative environment with a project manager and a creative director
- Analyzed the client's website and suggested improvements to information architecture and accessibility
- Did user research and designed low fidelity wireframes for the site's main pages.
- Pitched a presentation in front of the client and set up a pricing model for our services.
